PROMPT WORK OF THE JUDGES.

All the Awards Made with but Few Exceptions and Not a Protest from the Exhibitors.

HERE was a throng of a bout three thousand people at the poultry and afternoon. The Madison Square Amphitheatre presented a lively spectacle, and the avenues between the long rows of coops were crowdedespecially in front of the cages of the "freaks" of the show. The management hugged itself with

joy as the appreciative public paid in their half dollars. The band played lively airs and every-The judges who had performed such feats of

SIMON MAGUS IS ALL RIGHT.

The bay thoroughbred colt Simon Magus, by St. imon, out of Wheel of Fortune, who arrived on the Richmond Hill Thursday, left Brooklyn yesterday morning for the paddocks of the New York Tatterstalls at Hunt's Horit, L. I. Simon Magus seemed to have fully recovered from the effects of his rough voyage and was in capital spirits, jumping, biting and kicking at every one within reach. He is a fine looking racehorse and was admired by many wistors.

PACER MIKE WILKES DROPS DEAD.

BY TELEGRAPH TO THE HERALD. STILLWATER, Minn., Feb. 6, 1891 .- Mike Wilkes, the famous pacer, dropped dead while racing here on the ice this afternoon. He was campaigned through the grand effect during the seasons of 1887 and 1886, and brought his record down to 2:15%. He also had a trotting record of 2:26%, Abram Robrbeck, his owner, had recently been offered \$5,000 for him.

THE FEATHER WEIGHT FIASCO.

MANAGERS AND BACKERS STILL HOPING TO BRING ABOUT THE FIGHT.

HE hundreds of out of town sports who visited New York for the purpose tween McCarthy and Dixon returned, in the main, to their homes yesterday morning. Their disappointment was bitter, but the majority exonerated the managing directors, Wakery and

Roche, from all blame, and hoped for better things in the future. Many wondered how "a simpl glove fight" could so be stopped, but the older sport smen looked the fact in the face that there is less official interest in such encounters than was the case a decade ago. They knew that it would now be impossible to bring about such public knockout fights as filled Madison Square Garden years ago, and were sure that if a battle of the MoCarthy-Dixon order was to take place in this city or vicinity it would really have to be reduced to scientific points. So far as Long island City is concerned the feather weight battle is off for good, and as one of the stakeholders of the Purlian Athletic Club said last night, "If anybody wants a lot of old lumber, a few electric clocks, plenty of planking for seats and the make up of the best boxing ring in America, let them apply on the premises." It may not be as bad as that, but the liberal managers of the P. A.C. feel as if they had buried their money in that structure beyond redemption. glove fight' could so be stopped, but the older

tain, was ready at all the places for the right people.

THE FIGHT MAY TAKE PLACE.

In the matter of having the fight take place in some other locality than Long Island City there was no meeting until last night. Then Wakely, Roche, Tom O'Rourke and one or two others deeply interested in the match met at an uptown hotel and carnestly discussed the possiblities and probabilities of the situation. There were offers made in writing and verbally from directors of several public places not miles away from the Post Office in this city, but the majority were not seriously entertained, as it would be impossible to attempt to bring it off on Mannattan Island or in Kings county. But there was a suggestion about a place across the river in Jersey that might be utilized, and that is under consideration and will be accepted or rejected to-day.

the river in Jersey that might be utilized, and that is under consideration and will be accepted or rejected to-day.

George Dixon was in the hotel during the deliberations of the managers. He laughed heartily at being so near jail, and said that standing behind the bars woud be even worse than his severe training of the past even weeks. He was not nervous, but he would really like to know whether he was to fight or not—if he was all right; if not, he would like to depart a trille from his strict diet and methods of living. At midnight both he and O'Rourke left for their homes in Boston, and by five o'clock this evening they will be notified if the match will take place or is declared off. If the men meet, it will not, under any circumstances, be until the

IN LONG ISLAND CITY.

A number of men went to Long Island Clity yesterday, thinking it nossible that the Puritan Club had arranged matters with the Queens county authorities and that the Dixon-McCarthy contest would come off hast night.

Mayor Gleason said that the action of the Jeffersonian Club in stopping the match was due solely to spite. "My political opponents thought I was interested in the boxing match. I was. I wanted to see it. I think that when cities like Boston and San Francisco permit such contests to take place within their limits they would do no harm to Long Island City when properly conducted, and the number of policemen I had present was evidence that I did not intend the law should be broken."

City Judge Kavanagh said he certainly would have balled Dixon and McCarthey had they been arrested by Sheriff Goldiner and brought before him. He thought the idea preposterous that men could be arrested on a charge that they were about to commit a misdemeanor and locked up for hours, the judge committing them refusing to either accept bail or permit them to be taken before any other magistrate.

Alderman Desmond thought if the contest was to have been stopped it should have been done before people had been put to the expense of hiring carriages and making arrangements to see it. He said he wanted to see the men box, and thought it all wrong that it should have been done before people for political motives and also wrong if stopped for political motive

INCORPORATION PAPERS SIGNED.

THE OFFICIALS OF THE TWO NEW YORK BALL

CLUBS LEGALLY UNITED. The final incorporation papers of the New York Baseball Club were signed vesterday at Judge Bacon's office, No. 10 Wall street, and were then immediately forwarded to Trenton, N. J. The gentlemen who used their pens yesterday were John B. Day, E. B. Talcott, James E. Sullivan, Frank Robinson and J. W. Spalding. The papers will be returned next Thursday, when officers will be elected as stated in the Henato months ago. The name of the new organization will be the National Exhibition Company, with a capital stock of \$250,000. The old National and Players' League clubs will be dispanded.

PRINCE MAY SUE STOVEY.

[BY TELEGRAPH TO THE HERALD.] Boston, Feb. 6, 1891.—The managers of the local association team are angry at Stovey's signing with the Triumvirs and threaten a suit against him for breach of contract. Stovey had a three years' contract, but first class legal advice assures him that it is worthless. Mr. Soden says that he expects no trouble over the matter.

Stovey, it will be remembered, was not reserved by the Athletics and therefore cannot be termed an Association player, unless, as irwin says, the Association itself reserved all the Athletic team. Association itself reserved all the Athletic team. Morgan Murphy has signed with the Red Stockings.

FRED DUNLAP BACOMES A SENATOR. Washington, Feb. 5, 1891 .- The terms of Fred Dunlap were accepted to-night and he will play with the National Base Ball Club, of this city, the coming season. Ed Beecher, the hard hitting fielder, has also been engaged for the Washington

Buck Ewing left for his home in Cincinnati last night. He is anxieus for the season to open so that he can take a fail out of the Brookiyn "Wonders." "When the Giants get into playing form," were Buck's parting words, "Ward's crowd from over the Bridge will be the sickest lot imaginable. We'll snow them under. Ta! Ta!" One of the Botton League club officials, in a letter to the Hixaan, says shat Stovey signed with that club for the simple reason that he objected to playing in the American Association on account of Sunday games. The Triumvirs signed Stovey on the ground that he was not reserved by the Athletics and that his contract with the Boston Players' League was disbanded.

PLANS FOR TWO NEW BOATS IN THE FORTY-SIX FOOT CLASS.

[BY TELEGRAPH TO THE HERALD.] Boston, Mass., Feb. 6, 1891.-Mention was made in the HEBALD a few days ago of the new Fife boat in the forty-six foot class to be built by Lawley for a Boston yachtsman whose name was withheld. It can now be said that the yachtsman is Mr. C. H. Foster, owner of the forty footer, Ventura, which came next to the Minerva and Gossoon in last season's races, and also that the new boat, the Barbara, will be a wide departure from Fife's previous models, and will more closely resemble some of the Burgess productions, notably the

some of the burgess productions, initially the Gossoon.

The new boat will be 46 feet water line, about 63 feet over all, 12 feet 10 inches beam and 11 feet 8 inches draught, or deeper than any of the class yet designed. Her midship section is much like that of the Gossoon, and shows an easy bige with considerable hollow in the garboard and an almost straight and rather broad keel. Her sides flare outward a little, so that she is widest at the deek. The profile section of her underwater body is almost a perfect triangle, the apex being the heel of the stern post, the post itself raking at an angle of about fifty degrees and the keel running in almost a straight line to the forefoot, which is very much out away. out away. Graceful and easy lines mark the new boat every-

where, and with her big sail spread she has every indication of being a flyer. Mr. Foster will be his

indication of being a flyer. Mr. Foster will be his own shipper.

Another new boat which will bear watching is the one to be built from designs by John B. Paine, son of the General. Mr. Paine's success in the twenty-one footers Swordfish and Hornet is still fresh in mind, and he will carry many of the ideas there embodied into his new "forty-six." The new boat will be about 14 feet beam and 10 feet draught, or wider and shallower than any of the fleet, but she will be very powerful and will carry pienty of sall. Her mast will be stepped a little further forward than is usual and she will have rather a short bow-sprit.

sprit.
The General disclaims any credit for the lines of the boat, but it would be strange if his advice had not been sought. He will not put the Volunteer in commission this season, but will sail with his son on the new boat, which means that she will be asiled for all she is worth. The class will be a fighting one from the sound of the starting whistle, and the winner cannot be even guessed at.

THE BACE FOR THE CHALLENGE PENNANT OF AMERICA ENDS IN A FLUKE.

BY TELEGRAPH TO THE HERALD. POUGHKEEPSIE, N. Y., Feb. 6, 1891.—The big race for the Ice Yacht Challenge Pennant of America was to have been sailed to-day, but no result was reached. The judges ordered the yach is in line at a quarter to eleven o'clock, the following appearing and taking positions in the order named: -Northern Light, owner Dr. Barron; Avalanche, Sanford W. Smith; Icicle, J. A. Roosevelt; Quick as a Wink, C. Gallup; St. Nicholas, E. Rogers; Biltzen, A. Bogers, and the Reindeer, W. Kane. The course was from a point off the steam-boat dock at Hyde Fark to a stake two and a half miles and return, to be sailed over four

and a half miles and return, to be sailed over four times, a distance of twenty miles.

The ice being soft and the wind light the distance was sailed over only one time. Not being able to make the race in an hour and fifteen minutes, it was declared no race. In the first heat the ichiele was first, making the distance in twenty minutes. Northern light second and Biltren third.

The Haze and Scud, of the Shrewsbury club, not appearing until two hours after the official time for starting, the other boats were sent out without them. Another ottempt will be made to sail the race at ten o'clock to-morrow morning at the same place, but the outlook is bad, as the weather is very mild and the ice is wasting rapidly.

ATHLETICS AT BAYONNE

The Bayonne City Athletic Club gave an indoor athletic exhibition and variety show last night, drawing a crowded house. "Bill" Dunn and "Nat" Ellis, middle weights, did some clever sparring for points. Other friendly boxing was between Cush-

points. Other friendly boxing was between Cushing and Miller, Speidel and Tuite, Warren and Mellendick and two colored youths from the Scottish-American Athletic Club.

P. J. Doyle, James McGann and James F. Donovan swung the clubs; Louis Ross did balancing feats, and William Costello, eight years old, did some slack wire walking. There was also a wrestling contest, "catch-as-catch-can," between Frederick Blackford, of Elizabeth, and Arthur Brown, of Newark. George M. Bull was stage manager and Edward G. Brown musical director.

Rattling Pigeon Matches for Money Between Long Island Gun Club Experts.

KNOCKING OVER WOODEN PINS.

Plenty of Fine Scores Rolled up on Maple Alleys by Enthusiastic Wielders of the Ball.

HOOTERS were out in force at Dexter Park, Long Island, yesterday to see two matches decided. The Blake, of the Parkway Gun Club, and James Bennett, of the Glenmore Rod and Gun Club. They shot a match of 25 birds each, 27% yards rise, Hurling-

ham rules, for \$50. The latter had his man beaten after shooting at one-half of the birds, and finally won by a score or 20, Blake killing 15.

A DOUBLE HANDED MATCH. This match represented one-half of the Brooklyn brewers interested in pigeon shooting, with Excise Commissioner John Schlieman thrown in, and was one of the best and most closely contested that was ever seen at Dexter Park. The match was shot under Hurlingham rules, 50 birds a man, 25 yards rise, for \$100. It was a close race throughout. The Commissioner led a close race throughout. The Commissioner led off with Lanzer, the brewer tollowing. A. Eppig and P. Liebinger, two other wealthy brewers, followed. When the match was half shot through Schlieman and Eppig led by three biris, Liebinger and Lanzer then began to shoot well, but Schlieman and Eppig also began to shoot better and kept he score tied three or four times before the end of the match. As it was it resulted in a win by only one bird for Schlieman and Eppig, the latter making a very neat kill which decided it. The scores are as follows:—

BOWLERS BUSY EVERYWHERE.

CLOSE AND EXCITING GAMES MARK THE CLOSE OF THE ACADEMY TOURNEY.

HE crowd of bowlers that gathered at the Academy alleys last night to witness the final games in the Academy tournament was the largest seen there ment a year ago. Representative bowling men from this city, Brooklyn

and New Jersey filled the place, and the excitement throughout the evening was at fever heat. The contending teams in the first game were the Apollos, of Brooklyn, and the Fidelias, of this city, and they struggled for first and second prizes. The Brooklyn delegation was a large and very noisy one, and at the end of the game they were more noisy than ever, for the Apollos won after a hard tussle. The Brooklyn boys hit the head pin accurately every time they tried, and knocked out strike after strike and spare after spare. In the first frame they took the load by 13 pins, which they gradually in-creased, eventually winning by 54 pins. The second game between the Atalantas and Rosedales for third and fourth prizes was equally interesting. The Rosedales bowled in good form and won after the hardest kind of work by 27 pins. NO ICE FOR SKATING.

The championship races of the National Amateur Skating Association, which were to have been held at Newburg yesterday, were postponed until seven o'clock this morning, the ice not being in fit condition. Joe Donoghue and a number of the other contestants skated several miles up the Hudson yesterday afternoon, accompanied by the officials that have the races in charge, but they were unable to find a sheet of ice fit for the laying out of a course. The mild weather yesterday had caused the ice to them on top, making a coating of slush nearly an inch deep.

If the ice is good to-day all of the four contests on the programme will be run off.

SKATERS IN CONFERENCE. A conference of representatives of the National teur Skating Association and the New England Skating Association was held last night at the Grand Union Hotel for the purpose of considering a proposed programme of figure skating. E. B. Cook, of the National Association, presided.

The whole programme stranged was carefully gone over, but only a few changes were made, the principal ones being to dispense with the lap skating. "On to Richmond" and the various locomotive movements. There was considerable discussion over whether or not the "spread eagle" figure should be left on the programme, the Canadian delegate protesting vigorously against it, claiming that all skaters were "not built" so that they could execute the movements necessary for the figure. He was voted down. Before being finally adopted the programme must meet the approval of the various associations represented at the conference. Grand Union Hotel for the purpose of considering
